RL: Reporting Limit (Limit of Quantification of method). Methods that are accredited (ISO17025:2005) are described with "/AM" at the end of the method's code. Methods out of the scope of accreditation are described with "/OS" at the end of the method's code. Tests performed by subcontractors are identified by the symbol \*. The accreditation number of the subcontractor is referred at the end of this report. All tests are performed in HELLASCHEM facilities, unless differently mentioned in the certificate of analysis.
